Maid Brigade of Northern Connecticut Expands Under New Local Ownership

HARTFORD, Conn.—With new management and ownership, Maid Brigade of Northern Connecticut expands its complete green cleaning maid services in the Hartford, Marlborough, South Glastonbury, Newington, and East Windsor areas. New owners, Ann Bobbitt and Dan Kehoe, are long-time Coventry residents who took over ownership of the local franchise location in June.

Maid Brigade is the nation's leading cleaning service company with more than 400 franchise locations throughout the United States. It is the only Green Clean Certified® house cleaning company in the world, which means that the cleaning equipment, products, and processes used are approved by Green Seal and are safer for its customers, maids, and the environment. Maid Brigade is ranked a Top 100 Franchise by *Entrepreneur* and has a customer quality rating of more than 90 percent.

“As a Northern Connecticut resident I know how time-starved people are in this community and how much they deserve to spend their free time doing the things they actually enjoy,” says Bobbitt. “Maid Brigade provides them with a clean and healthy home for their families and the peace of mind that they’ve hired the highest quality and most dependable maid service possible.”
